

OYSADA

OYO STATE AGRIBUSINESS DEVELOPMENT AGENCY

FACT SHEET

Youth Entrepreneurship in Tomato Value Chain Project

The overall goal of this project is to improve youth productive skills in agribusiness in general and specifically support them into becoming agribusiness entrepreneurs in the tomato value chain.

1,500

young adults between ages 25-35 will be incubated.

20%

of the trained youths will become trainers on tomato value chain.

OVER

15,000

tons in tomato production output on 375 hectares in 3 years.

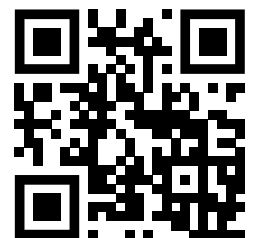

5,000+

youth will be employed along the value chain, directly or indirectly

The Youth Entrepreneurship in Tomato value chain projects aims at developing the technical knowledge and business skills of new entrant young farmers using the Oyo State Agribusiness Incubation Parks centers within the State.

Long term impacts of this project includes:

- Reduced youth unemployment
- Increasing Agribusiness small and medium enterprises
- Development of the tomato value chain
- Improve Internally Generated Revenue (IGR) in Oyo State.
